Sealed Proposals indorsed "Proposals for Building an iron Sectional Balance Dry Dock," will be received at the Navy Department until 12 c'clock mon the 18th day of September next, from dry dock builders, manufacturers and mechanics acquainted with that kind of work, for furnishing the materials for, and the building of, two sections of an Iron Sectional Balance Dry Dock at the Navy Yard, Pensacola, Florida.

Said dock to be erected and used in a basin in said yard 258 feet in length and 110 77-100 feet in width.

Said dock to be erected and used in a basin in said yard 258 feet in length and 110 77-100 feet in width.

Each section thereof to be of about the following dimensions, vis: Width, 108 feet; length, 36 feet 6 inches; depth 11 feet; and to have a displacement above its own weight, when completed, ready for use, of about 60 tons.

The general plans and specifications for the whole of this dock have been adopted, and may be seen and examined at the Navy Department. These plans and specifications are, however, adopted and assumed by the Government only as the general plans and specifications controlling the general character and dimensions of the dock, not as guaranteeing its strength, capacity and successful operation. But the contractor must assume and approve them to that extent, and will be himself held responsible that they are suitable and sufficient for the purpose desired, and also for the strength, capacity and successful operation of the dock, when built, for two years after it has been tested and found to be ready for use.

No increase of size and general dimensions will be parmitted without the express sanction of the Department.

The contractor will also furnish, for one section, called the engine section, two upright beam engines and boilers, with all the necessary pumps, water tanks, shaking, gearing, machinery and attach ments of sufficient strength and power to raise the dock of six sections, with a vessel of 3,200 tons weight upon it, in one hour.

The engines and boilers will be protected by a suitable house, to be built of charcoal iron.

Monetary. WASHINGTON, Wednesday Evening, Aug. 11. In the District of Columbia securities the Congress-quaranteed 2-65 bonds fernish a fluctuating feature that is truly refreshing in these times of general sluggishness of the stock markets. A general singgishness of the stock markets. As favorable move on the part of the long heads brings them to the front rank of activity, strength and true apwardness, but when the attention of the knowing ones is temporarily diverted from them from any cause or consideration, the bears and those harboring prejudice against the District immediately manipulate their points to protrict immediately manipulate their points to produce a depressing effect, and they hold high carnival until the shorts are covered at a profit, when the market reverts to its normal buoyancy.

present advantageous prices at which small orders at least can be had, and the nominal rates orders at least can be had, and the nominal rates and stagnant state of the loan market. The bonds are now paying about 6 per cent. interest. The natural conclusion of those who wonder that the market is not wildly active is that there that the market is not wildly active is that there is a lack of confidence on the part of those who are seeking investments as to the responsibility of the issuing party. What are the opinions of those who have disinterestedly studied the laws creating the bonds? The Attorney General of the United States, the Comprollers of the United States Treasury and all the able judges and lawyers of the country whose opinions have been deliberately expressed on the subject, regard the Congress guaranteed 3-55's not only guaranteed but originated by the United States and issued upon its pledge of faith for the payment of interest and principal; that it is ineffect a Government bond in no manner whatever affected by the action of a third party. Naming the bond "District of Columbia Funding Loan" does not lessen its reliability as a Government security; but to the contrary, the District of Columbia being owned and controlled by the United States of America, the very name carries with it the credit and responsibility of the most noted nation on the face of the earth for its careful regard of its pledged faith, and whose securities are sought by all peoples as the safest disposition of surplus These bonds are drifting into the hands of Ger-

man bankers and in other directions, which indi-cate that the market will ere long be reduced to a state of narrow fluctuation and easy exchange similar to the old issues of the United States. similar to the old issues of the United States.

The market in New York to-day was characterized by greater activity for the 1-85 bonds than for some time past. The bonds were rapidly cleared off as soon as holders yielded to the demands of bidders' own prices. Sales at the board of 30,000 at 61½. The market will now become stronger, as is usually the case when necessity's offerings are disposed of.

The 3-50's were strong in Philadelphia to-day, where they are beginning to loom up into public favor. Sales of 30,000 at 69 yesterday.
